

An aerial photograph of an oil field at sunset. The sun is low on the horizon, casting a golden glow over the landscape. The oil wells and infrastructure are visible in the foreground, and the horizon line is visible in the distance. The sky is a mix of blue and orange.

## HOME

We belong to the Al Marwan Group of Companies. Integrated Petroleum Company FZC is in the business of supplying Specialized Oilfield equipment and service to the Petroleum industry in the Middle East market since 2004.

After fostering result oriented relationships with some of the world's renowned manufacturers of oilfield equipments, we started marketing their equipments and service. Further, we entered in to Agency Agreements with them to exclusively market their products and support it with service and spares in the Middle East. This has helped us to provide our elite clientele, equipments manufactured by our principals with state –of -the–art technology. We also started manufacture and assembly of equipments at our facility in UAE and consequently this has helped immensely in offering products with competent prices to our customers.

With sustained efforts, today we have acquired the capability to supply a spectrum of equipments and service spanning Solid Separation Systems, Cementing, Acidizing and Fracturing Systems, Well completion equipments, Down Hole Tools and customized Wireline and Slickline equipments to serve the needs of the oil and gas industry.

# REPRESENTATIONS

## REPRESENTATIONS

We represent the following manufacturing companies in the Middle East:

### **Serva SJS Limited**

Web site: [www.sjs.servacorp.com](http://www.sjs.servacorp.com)

Serva SJS Limited manufactures cementing, sand control, acidizing and fracturing, fluid blending and mixing equipments for the oil and gas industry. They produce both truck mounted units as well as skid mounted units. These equipments offer world class computerized automatic control systems. LAN network control systems are available for complete truck/trailer mounted/skid mounted cementing, sand control, acidizing and fracturing equipments. The product range also covers centrifugal pumps and Triplex Pumps.

### **Triflo International**

Web site: [www.triflo.com](http://www.triflo.com)

Triflo International manufactures truck/trailer/skid mounted mud systems. Triflo International has been providing solids control equipment since 1979, with an extremely dedicated commitment to meeting the fluid processing needs of contractors and operators worldwide. Through design expertise and manufacturing know-how, they have developed a line of high-quality products as well as custom fabrication facilities to fill those needs.

### **Map Oil Tools Inc**

Web site: [www.mapoiltools.com](http://www.mapoiltools.com)

Map Oil Tools Inc manufactures and markets a wide range of Down Hole Tools that are very much accepted in the industry for their quality and reliability. Their main product range include Bridge plugs, Cement retainers, Production packers, Setting Tools, Retrieval packers, Workovers, Special tools. Flow control tools, Plunger Lifts etc.

### **Eclipse Wireline**

Web Site: [www.eclipsewireline.com](http://www.eclipsewireline.com)

Eclipse Wireline designs and manufactures custom wireline trucks for the oil and gas industry. The staff of Eclipse has years of experience servicing, designing, and manufacturing wireline equipment. Product reliability, customer satisfaction, integrity, honesty, and continual improvement are the cornerstones of Eclipse Wireline's business plan. Eclipse technicians are professional and knowledgeable about electrical controls and hydraulic systems. The Fabrication personnel are quality minded, and their skills are the best in the industry. Eclipse has in their product range customized truck/trailer/skid mounted wireline and slick line units.
