Mechanical Tubing Set Bridge Plugs - MSB Mechanical Setting Tool

Model MSB Mechanical Setting Tools are used to mechanically set MMB Bridge Plugs. It is designed to contain the upper slips of Bridge Plug in a safe retracted position while running to setting depth. The upper slips are released by right hand rotation and slacking off on the work string. Special designed Bow Spring provide positive control and allows one size Mechanical Setting Tools to cover a large range of casing weight. Locked with Bridge Plug. The Upper slips are held in a safe retracted position while running. Can quickly be configured to set MMR Cement Retainers. These tools can be used to run a number of Competitive brand Baker style bridge plugs. Â
